The 2.0T FSI engine found in most 2006-2008 Volkswagen and Audi A3, A4, GTI, and Jetta's were known for having fuel pump issues and failing cam followers. This is a known issue from VW and Audi and there is even a TSB for this particular failure. The problem with these high pressure fuel pumps is that they are a wear item by design.

### **New and Used Audi parts for Sale in Bremerton, WA - OfferUp**

I have a 2006 Audi A4 2.0 with aknock coming from the cam follower area. It was very persistent with a conituous knock. Cam chain and tensioner were fine. Replaced the intake cam and cam follower as there was significant ware. The cam lobes were warn and the cam follower was warn but not broken.
