Hello, I'm a newbie in the world of cnc. I bought a used Biesse Rover 13 from 1996, removed the transport clamping brackets (just 2 instead of 3 the manual shows) installed the machine but when I turn it on, the display show: ALARM - err 3 Machine in Emergency. The Z-axis isn't moving and still laying on the working table. What do I have to do, or better how do I get the machine starting?
