Economics A Very Short Introduction

Partha Dasgupta writes in his Preface of A Very Short Introduction: "... in one way or another we are all economists. ... As economics matters to us, we also have views on what should be done to put things right when we feel they are wrong.

Economics: A Very Short Introduction: Dasgupta, Partha ...

Abstract: Economics: A Very Short Introduction describes the lives of two children who live very different lives in different parts of the world: in the Mid-West USA and in Ethiopia. It compares the obstacles facing them, and the processes that shape their lives, their families, and their futures. This VSI shows how economics uncovers these processes, finds explanations for them, and how it forms policies and solutions, along the way providing an intelligent and accessible introduction to ...

Economics: A Very Short Introduction

In this Very Short Introduction, Stephen Smith shows how the field of environmental economics looks at how economic activity and policy can affect the environment in which we live. The book discusses environmental issues including pollution control, reducing environmental damage, global climate change policies, questions about how we should balance environmental and economic considerations, and what form government policies should take.

Environmental Economics: A Very Short Introduction: Smith ...

Reading Notes on Dasgupta's "Economics: A Very Short Introduction" why would one want to think like an economist? What is thinking like an economist—rather than like a sociologist (looking for the webs of human connections and common belief), a political scientist (looking at power and at authority both given and taken), or a historian (looking at origins and development)?

Reading Notes on Dasgupta's "Economics: A Very Short ...
