About Us | American Nurses Foundation | ANA Enterprise

Watson's theory of caring is a holistic model for nursing that suggests that a conscious intention to care promotes healing and wholeness (Watson, 2005, 2010). The theory integrates the human caring processes with healing environments, incorporating the life-generating and life-receiving processes of human caring and healing for nurses and their patients (Watson, 2006).

Caring in Nursing Practice | Nurse Key

Nursing fundamentals is a class required by most nursing programs that nursing students take during the first semester of nursing school. This class is also known as nursing foundations, depending on what your nursing program calls it. Many nursing programs split this class into a lecture (which is attended throughout the semester) and then a skills lab and clinical site.
