know that the individual is heterozygous or a carrier. \*Draw your own Pedigree - Case study #1: Condition of Interest: Albinism

### **STUDYING PEDIGREES ACTIVITY**

And a pedigree is a way of analyzing the inheritance patterns of a trait within a family. And it can be useful to understand more about that trait, maybe to make some insights about the genetics of that trait, and it's a way to think about what's happened in the past in a family, and then maybe we can help get some probabilities or get some understanding of what might happen in the future.
