Part 1 is divided into two chapters: 'The Life of Health' and 'The Health of Intellectual Property'. The first chapter commences with a striking analogy in which the knowledge economy and the intellectual property system are likened to a Portuguese Man o' War, i.e. an organic unity founded on co-operation and trust.

Intellectual Property, Medicine and Health Current Debates ...

Intellectual property (IP) has different forms; in the case of access to medicines, we are talking about patents. Patents are a public policy instrument aimed at stimulating innovation. By providing a monopoly through a patent—which gives inventors an economic advantage—governments seek to provide an incentive for R&D.
