book "Network Analysis" are 2 of the best books out there, on a curious note: it is interesting that Franklin F. Kuo was Van Valkenburg's PhD student, and both ended up writing some of the best books in the EE field, Kuo is more recognized in the control theory field whilst Van Valkenburg has more material on electrical networks and filters, however with this book in particular I would say that the student surpassed the teacher ...

Network Analysis And Synthesis Franklin F Kuo Solution

It explores state-space synthesis as well as analysis, employing modern systems theory to unite the classical concepts of network theory. The authors stress passive networks but include material on active networks. They avoid topology in dealing with analysis problems and discuss computational techniques.
