### Oracle Oid Bulk Delete - laplume.info

Use bulk deletes: Oracle PL/SQL has a bulk delete operator that often is faster than a standard SQL delete. Drop indexes & constraints: If you are tuning a delete in a nighttime batch job, consider dropping the indexes and rebuilding them after the delete job as completed. Small pctused: For tuning mass deletes you can reduce freelist overhead by setting Oracle to only re-add a block to the freelists when the block is dead empty by setting a low value for pctused.

### Deleting large number of rows in Oracle quickly

BULK Delete Hi Tom, This is my first question to you and hope to receive a positive response :) Straight to the Question: I have a table named trail\_log. This is a huge table and a daily growth of this table is 12GB Approx. Currently 76216160 rows. Important here to note is that this is online table in w
