## **Perch Dissection Lab Guide**

Part of the reason for the large numbers of fish is due to how well adapted they are to life in an aquatic environment. In this laboratory you will observe the internal and external structures of a perch, a typical bony fish. You will see how its structures make it ideally suited to living in an aquatic environment.

## **Perch Dissection Lab Guide**

Compare the features of a perch to other organisms. MATERIALS Procedure 1. Put on safety goggles, gloves, and a lab apron. 2. Place a fish on a dissection tray with the head on your left. Use Figure 1 to locate and identify the external structures of the fish. The head includes the mouth, nostrils, eyes, and operculum (gill cover). Turn the fish as needed. 3.
