## **Quirks of Human Anatomy Pdf - libribook**

Quirks of Human Anatomy was written primarily with the graduate student in mind and has succeeded in discussing evolution from an embryological perspective, but it falls a bit short in its promise to purge this discussion of jargon. Overall, the book is a good read for those interested in evolutionary biology and should be a successful book in the hands of those students Held is aiming to reach.

Quirks of Human Anatomy: An Evo-devo Look at the Human Body, by Lewis I. Held, Jr. is a lively romp through the evolution of the human body - with particular attention to traits that do not work so well, which he calls "quirks". He wrote the book for last year's celebration of Darwin's 200th birthday and the 150th anniversary of the publication of Origin of Species, but it will easily stand on its own now
