These ideas are regarded as reflections of class interests and are connected to the power structure, which is identified with the class structure. This Marxian model, which was claimed to be particularly valid for capitalist societies, has met with much criticism.

Social structure - Theories of class and power | Britannica

The social structure of the U.S. results in a sharply stratified society in which very few people control wealth and power — and they have historically tended to be white and male — while the majority has very little of either. Given that racism is embedded in core social institutions like education, law, and politics, our social structure also results in a systemically racist society.
