transformative learning is a complex process invites one to consider it as both predictable, according to determined general principles (e.g., the crucial role of disorienting dilemma, dialogue, etc.), and unpredictable (e.g., the randomness of the experience of epiphany).

Transformative Learning and the Challenges of Complexity

fundamental to the adult learning process. It is transformative learning the-ory that explains this learning process of constructing and appropriating new and revised interpretations of the meaning of an experience in the world. Thirty years ago, when Jack Mezirow (1978) first introduced a theory of
