Reviews for The Limits of Settlement Growth: A Theoretical Outline 'I found the book stimulating and thought provoking. I recommend it to anyone interested in settlement size, growth, sedentism and change throughout time ... the book is well worth the effort and time, and other readers will find other topics of interest in this complex but fascinating book.'

The Limits of Settlement Growth: A Theoretical Outline by ...

In this study Roland Fletcher argues that the built environment becomes a constraint on the long-term development of a settlement. It is costly to move settlements, or to demolish and rebuild from scratch, so the initial layout and buildings, and the forms of communication that result, may come to shackle further development and also to place constraints on social and political change.

The Limits of Settlement Growth (□□)

Problems of settlement growth =traffic causes congestion, accidents, noise and air pollution. =old roads are too narrow for lorries and buses ; new roads take up much land. =old houses and factories need urgent, expensive repairs or they are left empty.
