Windows Xp Screen Resolution Won39

Screen Resolution This slide bar is what you use to change the resolution, the options you have will depend on your graphics card and monitor, but the standard options are 800x600, 1024x768 and 1152x864. Normally the default (in XP) is set to 800x600 which means the display will be 800 pixels wide and 600 pixels high. Color Quality

How to change screen resolution in Windows XP

When I first install Windows XP Professional, I can select 1152x864x32 and it works quite well! As you know, xp detects and installs geforce2 with its own driver. But when I install the drivers from nvidia site, and use them, the 1152x864 resolution disappears in properties screen. So the problem is, my monitor supports 1152x864.
